A heavy blow on Know-Nothingism. The elections that have taken place recently, exbibit in the clearest manner the downward tendency of know-nothingism, and predict, beyond contingency, the complete prostration of "Sam" in November next. Last Thursday's election in Virginia speaks an eloquent lesson on this subject. The strong holds of know-nothingism have given way, under the double pressure of Democratic harmony and fine talents, was a candidate for re-election. His two governments. opponent was Mr. R. P. If so, let him pause and reflect upon the consequences which his laws or the rights of sovereignty of the United vote may entail upon the party, whose principle he professes to advocate, and whose success be ought to have at heart. Lewis D. Campbell of Ohio, A. C. M. Pennington of New Jersey, Howell Cobb of Georgie, A. B. Greenwood of Arkansas, and F. E. Spinner of New York. In each house the proceedings were based upon the assumption that Mr. Brooks made the assault on Mr. Sumner whilst in his seat and engaged in his public business. In the House these facts were assumed in the preamble of Mr. Campbell, and in the Senate they were distinctly assumed by Mr. Wilson in his opening remarks. It is hardly doubtful that the proceedings in the two houses were the result of that Mr. Sumner at the time of the assault was not only in his seat, but engaged in his public duties as a Senator. As these seemed to be the only material facts about which there may be controversy, we feel at liberty to state briefly what we think will be found to be the truth as to the occurrence.

As the attack was made by Mr. Brooks when the Senate was not in session, and when the chamber is open to all persons, we presume that the legal question which may be involved. Whether Mr. Sumner was at the time engaged in his public duties, and, if he was, whether that is a material circumstance in the case, are questions on which the committees raised will report the facts and their opinions; and until such reports, we deem it premature to indulge in further remarks.
